

How to install MATLAB

Pegasus 2026–5-30

Requirement:

OS: Windows 10 or 11, 64 bits version

Storage: > 10 GB

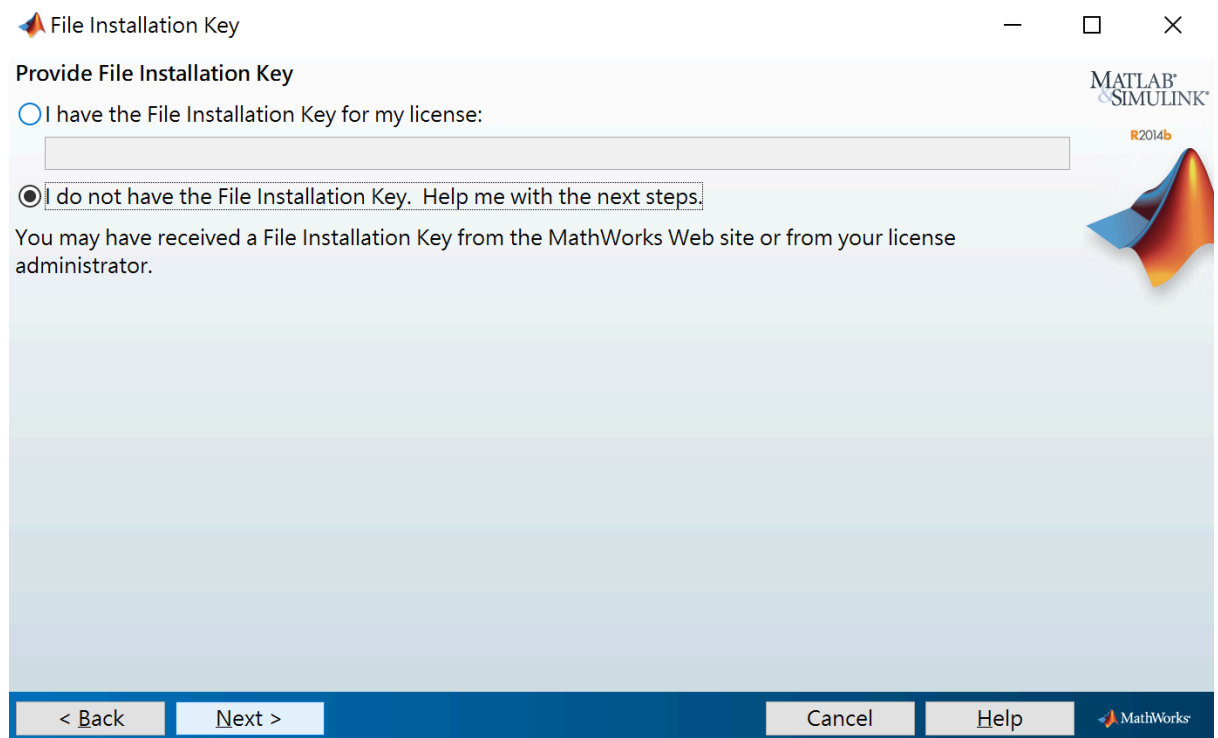

1. Go to [PolyU Matlab portal](#)
2. Login
3. Create an account with your school email
4. Find and click “**Install MATLAB**” on the top right corner.
5. Select the version “**R2014b**” and download the “**Windows (32-bit)**” version for “**R2014b**”, it will be a .iso file.

!! This is very important, please confirm that you are downloading the correct version. !!

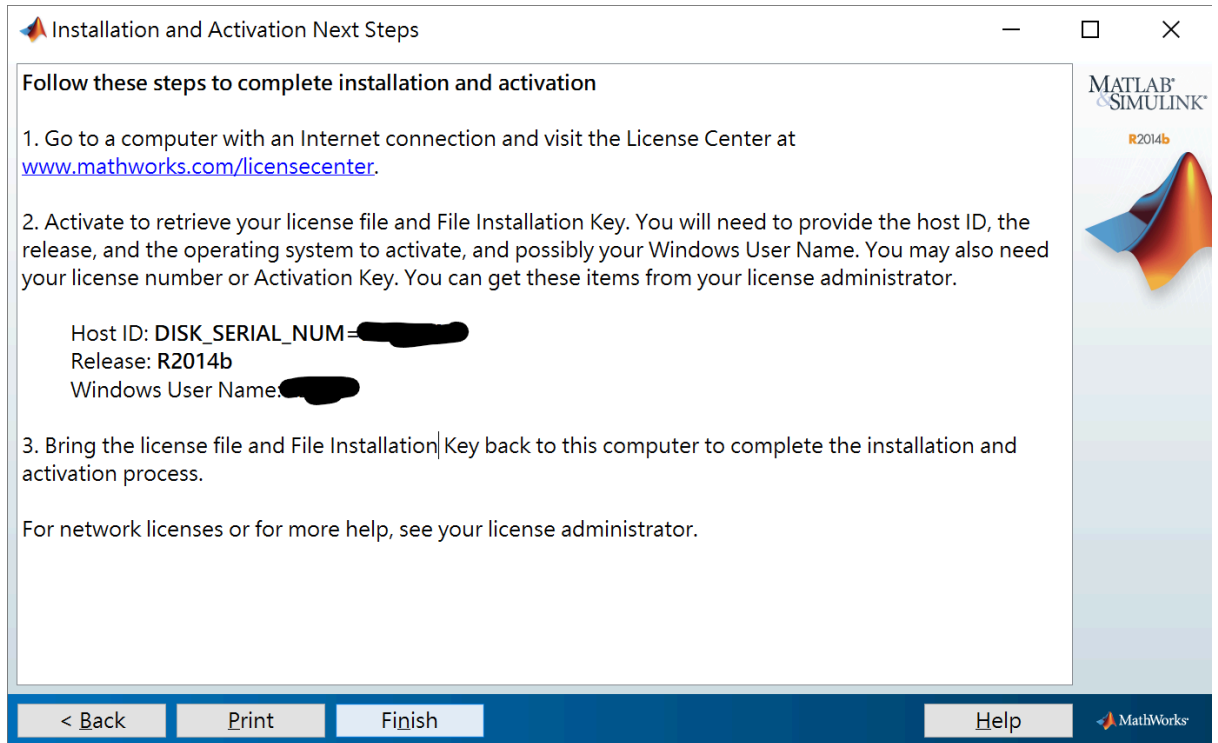

6. Unzip the .iso file to a new folder.
7. Find the “**setup.exe**” in the folder and run it, it is the installer of MATLAB.
8. Select “**Use a File Installation Key**” and **accept** the agreement.

!! Here is a bit complex, keep it slow, and confirm you are following this instruction carefully. !!

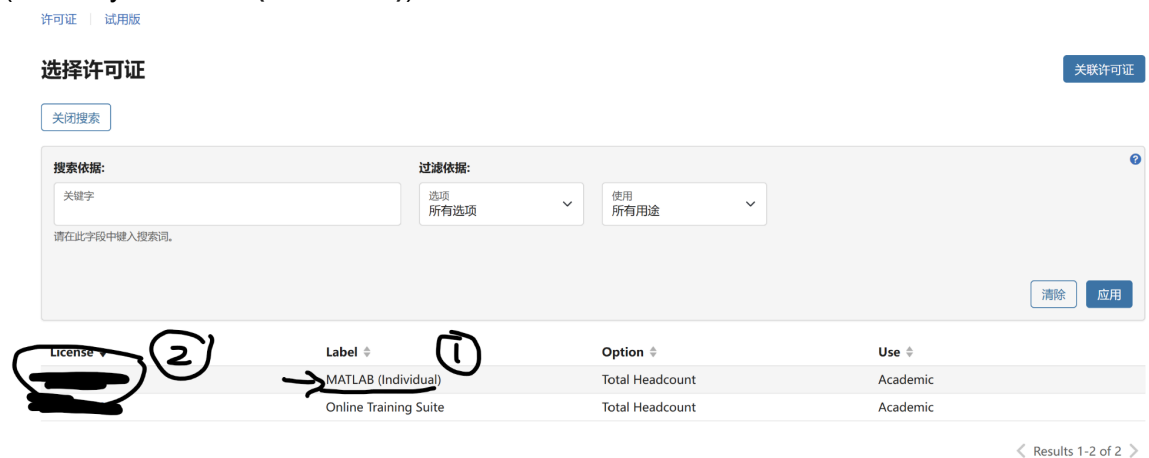

9. Select “**I do not have the File Installation Key. Help me with the next steps.**” and “**Next**”.

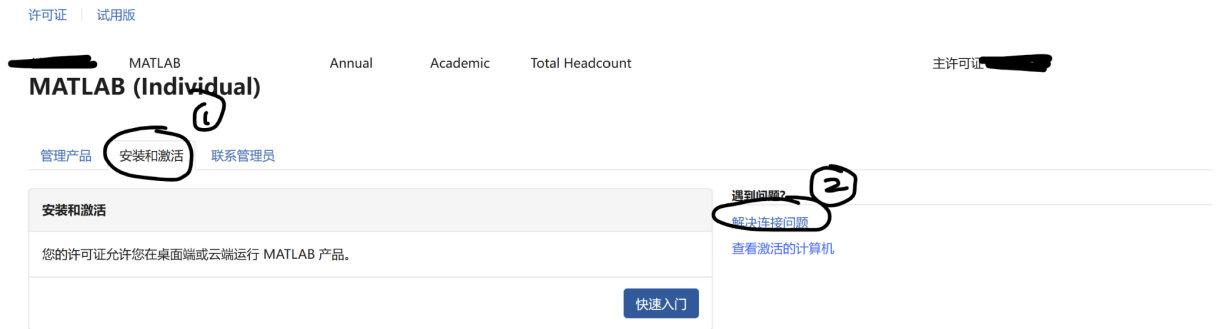

10. Make down the “Host ID”, “Release”, and “Windows User Name”, and click !! “Back” !!

11. Sign in to the [License Center](#) and select your license by clicking on the license key. (Label by **MATLAB (Individual)**)

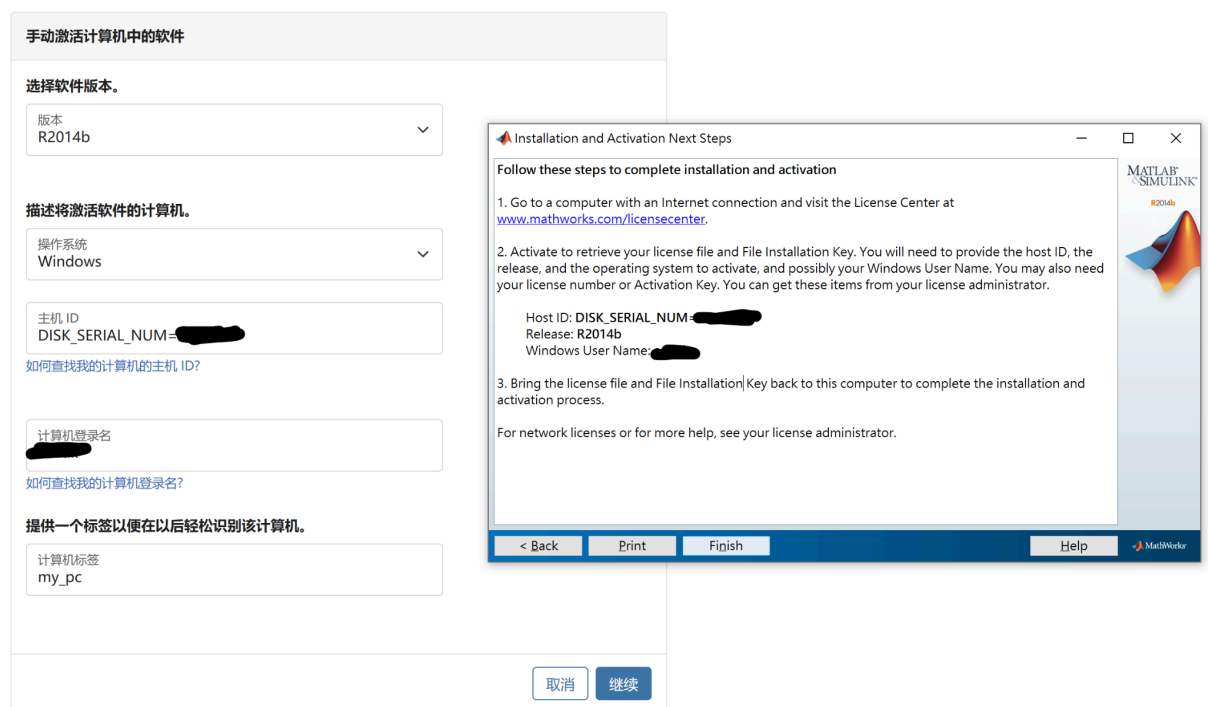

12. On the **Install and Activate** tab, click **Resolve a connection issue** (on the right hand side), and then **Activate to Retrieve License File**.

MATLAB (Individual)

13. Fill out the requested details and then click **“Continue”**.

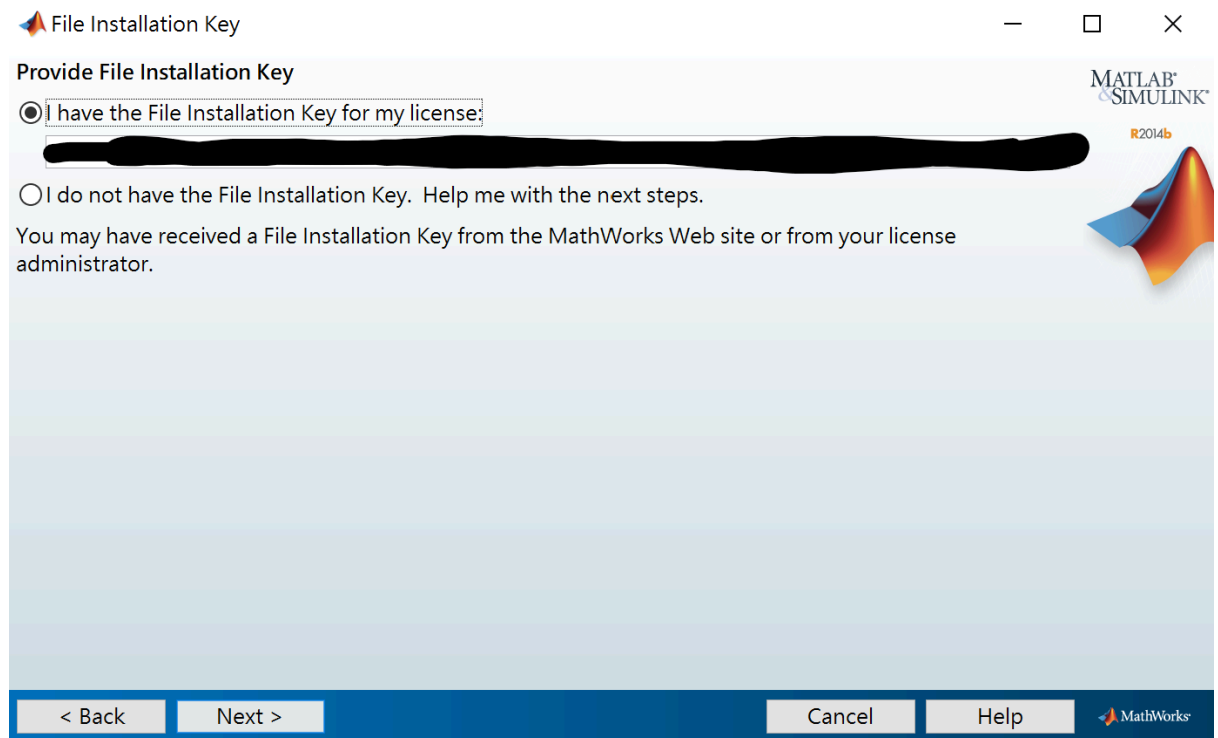

14. When asked if the software is installed, select **“No”**, and then click **“Continue”**.

15. Click **“Download License File”** to download the license file to your computer.

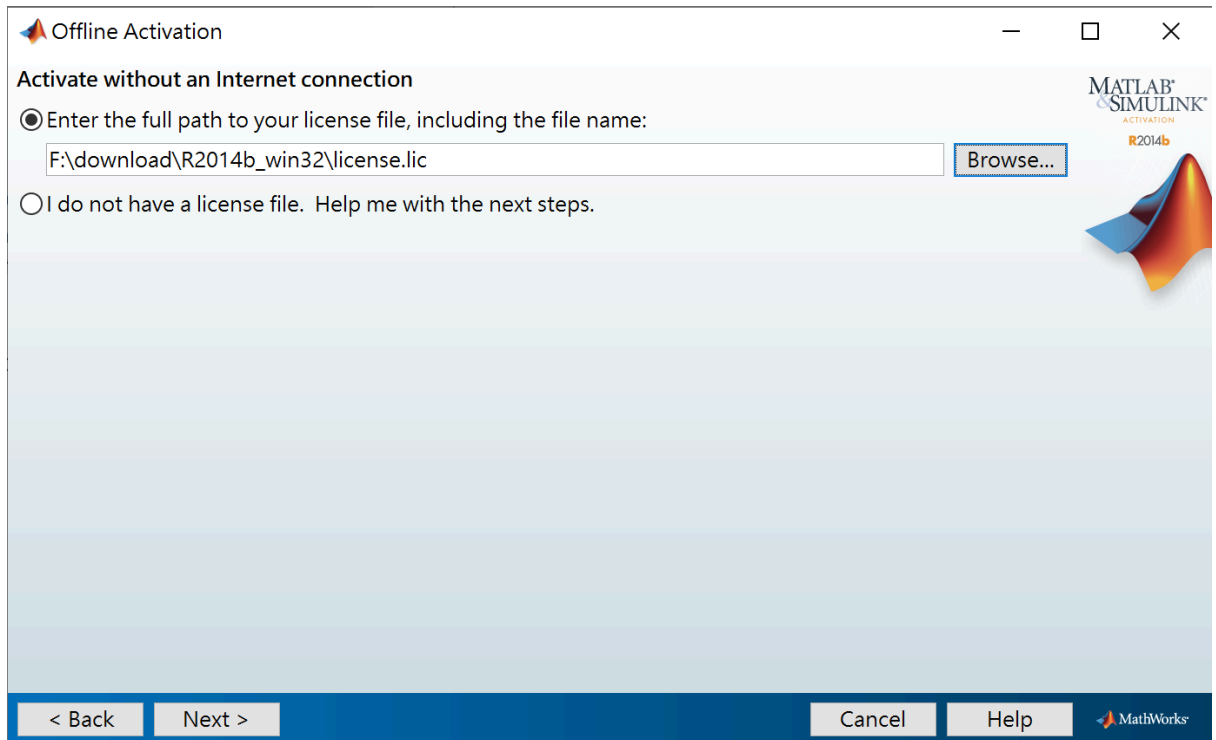

!! Please put it somewhere easy to find and don't include space in the path. !!

16. Copy the “**File Installation Key**” that appears on this page.
17. Select “**I have the File Installation Key for my license**” and paste the “**File Installation Key**” you retrieved. Click “**Next**”.

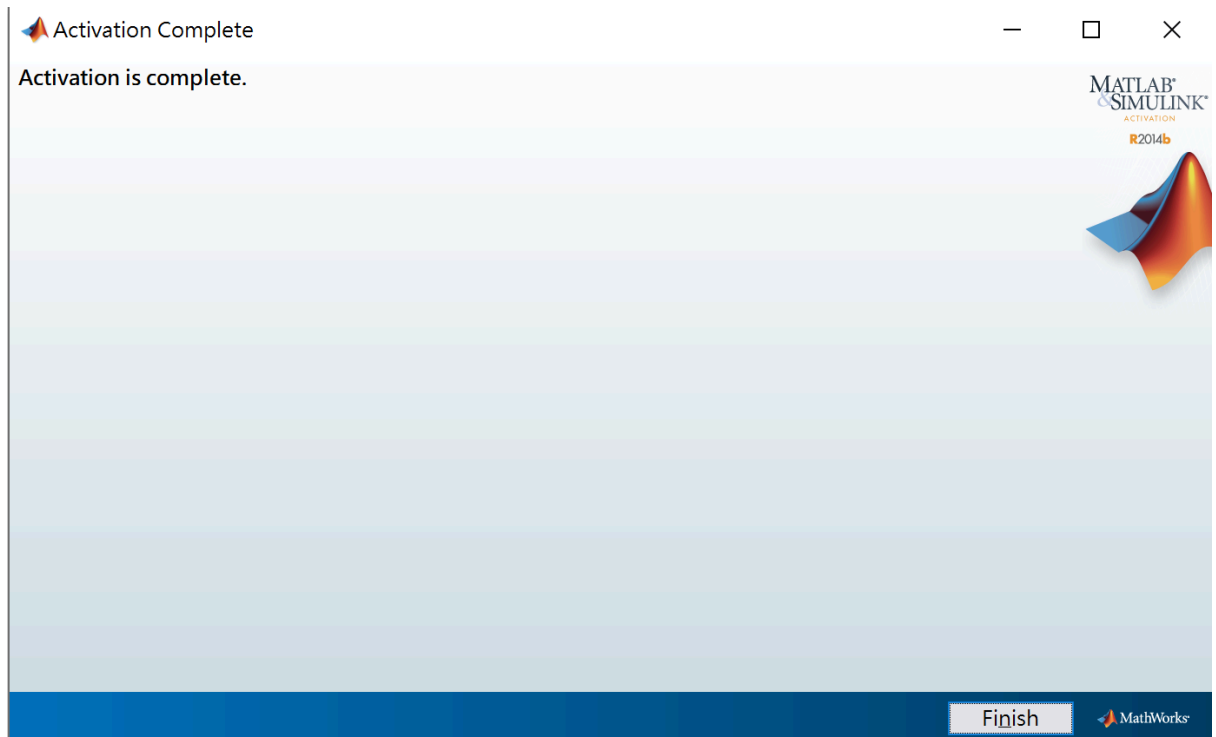

18. Select an installation folder and click “**Next**”. (We suggest to install to another disk)
19. Select all installation options and click “**Next**”.
20. Click “**Install**”.

21. Once installation is complete. Click **Next** to start the process for activating MATLAB.
22. On the activation page, select **Activate manually without the Internet** and click Next.
23. Select **Enter the path to the license file** and browse for the license file you retrieved.
Click Next.

24. Click Finish to start MATLAB.
