

How to install MATLAB

1. Go to [PolyU Matlab portal](#)
2. Click on login
3. Create an account with your school email
4. After login you should be on this page

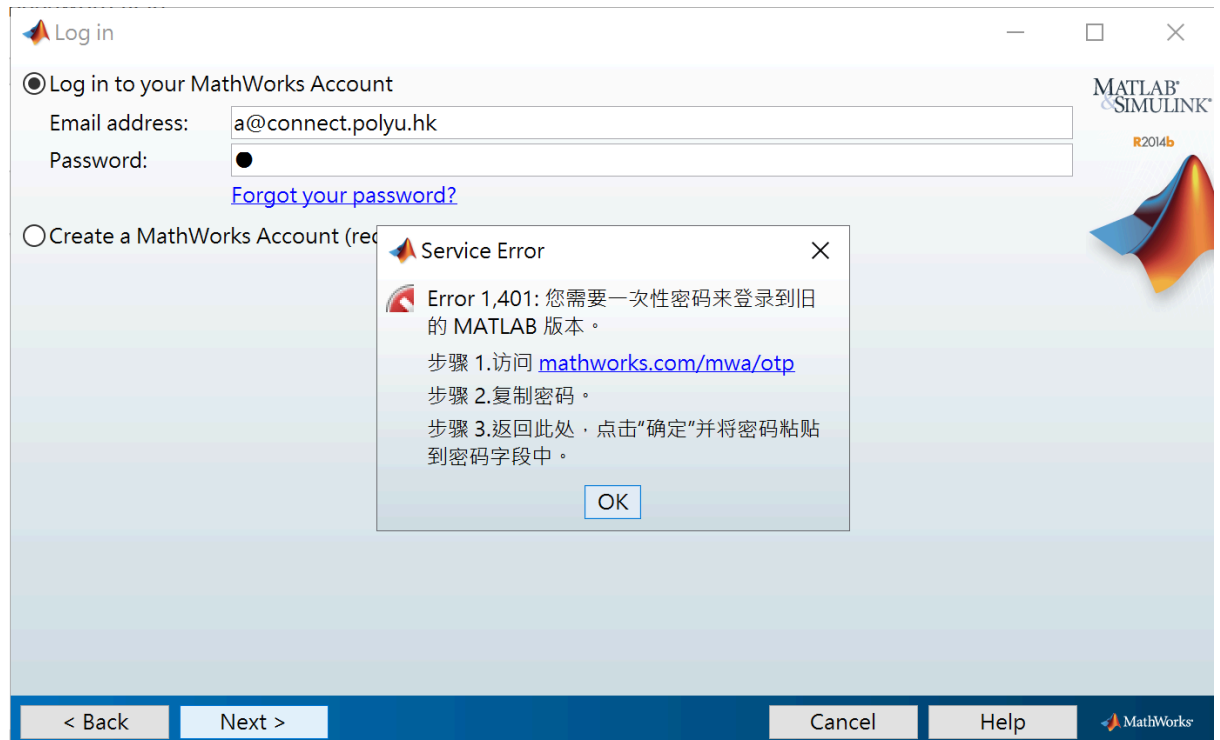

5. Click “Install MATLAB” (on the top right corner)
6. Install the version “R2014b Windows 32bit”
7. Open the installer (remember to unzip), choose login with account, and next

8. Accept the agreement

9. **Important!** Here, what ever your password is, you will be required to use a once-times password to login,

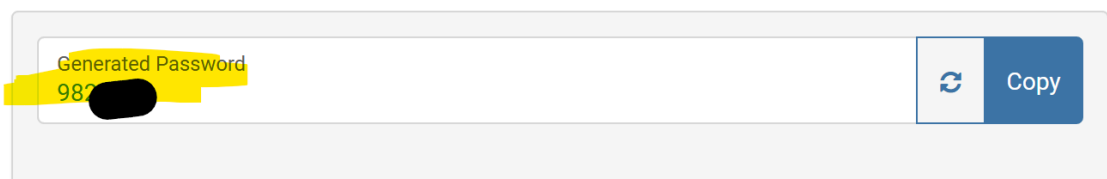

10. Follow the instruction there, login again with your own 'name'@connect.polyu.hk email, and the once-times password.

One-Time Password

Step 1. Copy this one-time password. To sign in, enter the email address [redacted]@connect.polyu.hk".

Step 2. Return to the installer and paste it into the password field.

11. Select the license
12. Choose the location
13. **Important!** Select **ALL** product
14. And that is
